

Integrated Sustainability Solutions LLC

Corporate Capabilities Statement

Integrated Sustainability Solutions LLC is a small business consultancy, which provides a wide range of services related to climate change, sustainability, and related topic areas.

Climate Change Vulnerability, Adaptation, and Resilience

Building climate change resilience through vulnerability assessments from local to national level, leading to the development of flexible climate resiliency pathways

LULUCF

Land Use, Land Use Change, and Forestry — greenhouse gas sequestration and emissions reductions

Greenhouse Gas Mitigation Strategies

National, sub-national, local, sectoral, and facility level for governments and the private sector

REDD+

Reducing Emissions from Deforestation and Forest Degradation (REDD) plus Conservation — ensuring community ownership

Corporate Sustainability Strategy

High level strategic support, indicator development and analysis, and sustainability reporting - Global Reporting Initiative (GRI) and more

Climate Smart Agriculture

Climate proofing agriculture through planning around impacts and uncertainty

UNFCCC National Communications

Support for national assessments of climate change, quality assurance, and quality control

Proposal Development

Converting the best technical ideas into winning proposals

EC-LEDS

USAID's flagship Enhancing Capacity for Low Emission Development Strategies Program — experience with global evaluation and regional/country specific approaches to EC-LEDS

Rapid Mobilization

Short lead time, can adapt to client schedule for technical assistance or project reconnaissance and tracking
